"Dharma, which does not respect Humanity, cannot be called as Dharma. Today, in the name of Dharma, inhuman and unlawful activities are carried out. In all the places, we see Dharma is misused, abused and twisted. The Dharma, which is very root foundation of peace and harmony, has been abused and distorted and introduced vise versa by self centered people for their end. "

"At this point of time, Religious heads cannot be silent spectators to this distortion of their own field by few selfserving people and they have to take necessary steps to preserve the real meaning of the Dharma. The religious leaders should take necessary steps to bond the hearts of humanity with love and affection. To achieve this goal, all the religious leaders from different faiths should work together like Hindu Gods, who has multiple faces but one heart. This is the time for different faiths to engage in common action. Towards this direction, the worldwide organization of world religious leaders, the World Council of Religions for Peace, (WCRP) which is supported by United Nations, should take a leading and decisive role" said His Holiness Shree Shree Sugunendra Theertha Swamiji of Jagadguru Sri Madhwaachaarya Moola Mahaa Samsthaanam,
